

MANNA

UK Branch of Meir Panim

Please make sure no one in Israel has an empty fridge for Hanukkah

Dear friend,

Last December at our Gala Dinner in London, we demonstrated the vital work that Meir Panim does in Israel.

Since then, the impact of Covid-19 has been catastrophic.

- We are feeding three times as many households as this time last year, yet we have lost our free daily source of donated prepared foods from local hotels and businesses, which form part of our supply.
- Our income has dropped 30% at the time when we need it most.
- 11,000 households are depending on us for their food each day.

Last week, one of our dedicated UK supporters, Madelaine Black, a volunteer who attended last year's Gala Dinner, visited Meir Panim's Or Akiva centre, where demand for daily hot meals has increased from 150 to 2,000 in 2020.

Please look at her insightful and inspiring video testimony:

Thanks to your support in the past, Manna Meir Panim has so far been able to rise to the Covid-19 challenge, but it is not sustainable without your further help.

Please continue to donate to Manna Meir Panim to ensure that no one in Israel who is depending on us for their daily food will go hungry.
